### New York Stock Market

New York, April 1.—The professional operators in stocks showed growing discouragement to-day over the apathy of the public interest in the market, it drifting into such a state at neon that sales for an hour fell to less than 18,000 shares. No positive expression of speculative sentiment can be looked for in such a market.

A factor in the hesitation is the question over a possible decision by the Supreme Court on Monday in the American Tobacco case. The convision is general that widely divergent results will follow in the stock market from the alternatives of the decision. The approach of such an expected crisis discourages all ventures. The beginning of the gold outflow to London was another repressive influence. The langual bostowing demand for money, it is feared, indicates an attitude of hesitation in general business similar to that in the stock market. Receipts of currency on balance from the interior bave fallen on this week, probably owing to the desire of interior banks to fortify their serve showing in expectation of the government call for condition, which came to-day. The Subtreasury, meantime, has taken a considerable sum from the banks during the week, Little attention was paid to the money market in the existing lethargy of the stock market.

Speculation is preparing itself for the forthcoming government crop report and the tone of the States' reports now being received foreshadows a marked deterioration in the winter wheat condition. The news of general curtailment in all districts by the cotton mills illustrates a phase of the problem of high prices and the resisting increase in demand.

Bonds were irregular. Total sales, bar value, \$2,281,000. United States bonds were unchanged on call.

Total sales of stocks for the day were 241,700 shares.

New York, April 1.—Money on call firm, 2.75.873.1.2 per cent. ruling rate, closing bid and offered at 3 per cent. Time loans weak and dull; sixty days, 3.3-4, and ninety days, 2.7-804 per cent, six months, 464, 1-4.

Close: Prime mercantile naper, 4.1-2

COTTON MARKETS.

New York, April 1.—The cotion market after a very nervous and unsettled norming turned weak and closed at a net loss of 16872 points. The opening was steady at a decline of \$212 points in response to lower tables than expected, reports of turner varians in Texas and a continuation or yesterday's late selling movement. There was a good demand at the start with strong interests absorbing new ero offerings for found to initial agures, and during the middle of the day prices railized to within a point or two or fast night's finals on covering by green sellers and fresh buying. May contracts no support on this railly, and in the afternoon the market became very weak under Southern selling, local it unidation, and a renewal of hear pressure. Stop-loss orders were uncovered on a scale down, and sellen months sold off to a net loss of about 18921 points, which represents do a decline of between at and 50 points from the lish level of Wednesday morning. There was some good buying on this break but the close was barely steady. Possibly rather bearish weekend figures in duced some of the selling, but it looked as though the chief fociors were the ports of temporary relief from Texas drought complaints and a revival of the gossip that leading buils had abandoned alle May Geal.

Receipts at the ports to-day were 10.200 bales against 1.581 last week and 9.938 and year. To day's receipts at New Orleans 1.500 bales against 1.581 last year, and at Houston 1.65 bales against 2.571 last year, and at Houston 1.65 bales against 2.571 last year.

Cotton futures opened steady and closed Barrely steady.
